

MOHAMED BABEKER

Senior Architectural & Spatial Planning Consultant | Urban Design & Technical Coordination

Riyadh, Saudi Arabia | +966571684681 | dooo8a@gmail.com
LinkedIn: linkedin.com/in/mbabeker

- **Professional Registrations:** Saudi Council of Engineers (SCE) – Accredited Architect (1282415) | Abu Dhabi DMT Licensed Practitioner Architect (25138)
- **Legal Status & Mobility:** Work Visa (Transferable) | QVP Verified | Available Immediately in Riyadh | Driving License (Saudi Arabia / UAE)

PROFESSIONAL SUMMARY

Accomplished Senior Architectural and Spatial Planning Consultant with +9 years of regional GCC experience (Saudi Arabia, UAE, and Sudan). Holds a B.Sc. (Honors) in Architecture & Spatial Planning, combining expertise in master planning, public realm design, and microclimate research with hands-on leadership in technical office management. Proven track record in directing design review cycles, site planning, auditing high-precision LOD 400 shop drawings, and resolving interdisciplinary BIM clashes across architectural, landscape, and infrastructure disciplines. Advanced proficiency in Python-driven engineering automation and ENVI-met microclimate simulation, successfully ensuring compliance with building codes and bridging urban strategy with seamless site execution.

CORE COMPETENCIES

- **Urban & Spatial Planning:** Master planning, site planning, public realm design, pedestrian circulation, spatial analysis, passive urban cooling, ENVI-met simulation (UHI, MRT, PET, UTCI metrics).
- **Technical Office Leadership:** Multidisciplinary coordination, submittal approvals, shop drawings (LOD 400), building codes & accessibility compliance, As-Built auditing, BOQ, QA/QC & snagging.
- **BIM & Architectural Detailing:** Interdisciplinary clash resolution (Arch/Struct/MEP/Landscape), building orientation review, Revit Architecture (ACP Certified), AutoCAD, Navisworks fundamentals.
- **Automation & Computational Tools:** Custom Python scripting for workflow automation and dataset processing, advanced AI tools (Claude, Midjourney) for spatial research.

PROFESSIONAL EXPERIENCE

Golden Star Engineering Consultancy | Abu Dhabi, UAE

Head of Technical Office & Senior Consultant Architect / Planner | Sep 2025 – Sep 2026

- Directed technical office operations and managed a multidisciplinary engineering team, overseeing urban design reviews, site planning, and submittal compliance for 6 major commercial, mixed-use, and public realm developments valued at over \$35M AED.
- Spearheaded the technical review and approval of 250+ LOD 400 shop drawings, material submittals, and RFIs, reducing turnaround time by 25% while maintaining 100% municipal and life safety code compliance.
- Orchestrated cross-functional BIM coordination across Architectural, Structural, MEP, and Landscape disciplines, eliminating 120+ critical site spatial clashes—including external levels and hardscape interfaces—prior to execution.
- Managed high-level client relations, consultant design presentations, and municipal authority liaisons to expedite spatial permits and master plan approvals.

Ahlam Interior Design & Fit-out | Fujairah, UAE

Technical Office Lead Architect & Detailer | Jun 2023 – Jun 2025

- Led the technical office unit for luxury residential and commercial fit-out projects, directing the production of detailed shop drawings for 12+ high-end villa and retail developments.
- Engineered precision architectural construction and joinery details, successfully bridging concept designs with site execution, including arrival points and spatial accessibility, to reduce material wastage by 15%.
- Streamlined material approval workflows and resolved complex technical site disputes with supervising consultants, ensuring seamless handover of final As-Built packages.

Octantis Architecture Co. Ltd | Khartoum, Sudan

- Supervised site execution and technical office operations for 20+ diverse projects, including residential complexes, commercial assets, and infrastructure facilities.
- Directed the architectural redesign, expansion, and structural retrofitting of the heavy crusher line at the Atbara Cement Factory, delivering the project on schedule without halting operational plant production.
- Managed daily interdisciplinary site coordination, reviewing building orientation and external spatial relationships, handling submittal workflows, and conducting final snagging inspections for successful project handovers (95% client satisfaction rating).

APPLIED URBAN R&D, AUTOMATION & COMPETITIONS

- **Engineering Workflow Automation (Python):** Developed custom Python scripts to automate routine architectural and spatial data processing, dataset normalization, and analytical reporting, accelerating technical office output efficiency by 30%.
- **Breathable Urban Pavements (Arid & Coastal Zones):** Researched climate-adaptive urban paving solutions; conducted ENVI-met microclimate simulations demonstrating 25–35°C surface cooling in arid zones via active evaporative matrix and 12–18°C surface reduction in coastal zones.
- **Smart Bio-Urban Furniture (Dubai 2040 Urban Competition):** Shortlisted for Phase 2 (Top 100 International Entries | ID: 23647). Engineered 4 biophilic urban furniture elements integrating 3D-printed porous concrete, microalgae CO2 capture, and passive evaporative cooling.
- **Sustainable Rural Health Center (Off-Grid Prototype):** Designed a 100% off-grid healthcare facility utilizing compressed earth blocks (CSEB), rainwater harvesting (5,000L), and solar storage (10 kWh); prepared full BOQ and feasibility studies.

EDUCATION & LICENSES

- **B.Sc. (Honors) in Architecture & Spatial Planning** | University of Science and Technology (2011 – 2016) - Academic Grade: Second Class – Division Two.
- **Saudi Council of Engineers (SCE):** Accredited Architect (License #1282415).
- **Department of Municipalities and Transport (Abu Dhabi):** Licensed Practitioner Architect (License #25138).

CERTIFICATIONS, TRAINING & LANGUAGES

- **Certifications:** Autodesk Certified Professional (ACP): Revit Architecture | Advanced coursework in PMP principles | Knowledge of LEED Green Associate & Estidama.
- **Languages:** Arabic (Native) | English (Full Professional Proficiency - Technical & Commercial).
